Environmental Policy

Environmental Policy

KB Reinforcements is committed to protecting the environment and the health and safety of our employees, our customers, and the public. We strive to conduct our activities in an environmentally sustainable manner, taking into consideration the complex and interconnected relationship of our ecosystem.

KB Reinforcements is committed to compliance with all applicable governmental requirements and internal environmental, health, and safety (EHS) requirements. We maintain management systems that are documented, implemented and designed to ensure compliance and support integration of EHS considerations into our business process.

KB Reinforcements is committed to the protection of human health and prevention of pollution. We strive to identify and eliminate negative EHS impacts associated with our facilities, activities, services, and products.

KB Reinforcements is committed to continual improvement of our EHS management systems and performance. KB Reinforcements will establish objectives and targets, conduct regular management systems and performance evaluations, and periodically report on our performance to our employees, our customers, and the public.

KB Reinforcements will foster communications with interested parties, including our employees and the public, and be responsive to their EHS concerns and suggestions. We will share information and openly communicate our EHS management systems and performance and the impacts of our activities, services, and products.

Management at all levels will take actions to ensure that all employees understand the meaning and the importance of this policy. Our employees are responsible for integrating EHS consideration into their work activities.

A handwritten signature in black ink, appearing to read 'S Roberts', written over a faint watermark.
